Are you interested in helping conserve endangered species and experiencing diverse wildlife? Join an SSA Conservation Expedition for the chance to work alongside wildlife researchers and conservationists in some of the most biologically diverse places on the planet. You might find yourself on a remote beach helping newborn turtles travel safely to the ocean, trekking through the rainforest to observe endangered monkeys, or working with elephants in the middle of a Thai jungle. While our conservation work will be the focus of these expeditions, we spend the rest of the program adventuring in beautiful locations with a group of students from across the country.

Adventure Highlights

DISCOVER THE BEACHES AND NATIONAL PARKS OF THE PACIFIC COAST

ASSIST WITH RESEARCH EFFORTS AT THE PLAYA TORTUGA STATION

EXPLORE THE EXTENSIVE WILDLIFE IN FLOREANA

VOLUNTEER AT A BIRD SANCTURARY IN TONLE SAP LAKE

[Get Started Now](#)

The natural environments of our world are in danger. Millions of unique species are at risk of extinction, which impacts everything from the air we breathe, to the water we drink, and the land on which we live. Our approach is to get you, the next generation, involved through hands-on learning from people on the front lines of wildlife conservation.
